

MoonTree Studios
9601 Union Road
Donaldson, IN 46513

To whom it may concern:

I've known Andrew for a number of years as he worked for our community. During these years Andrew consistently demonstrated a passion for his work, ability to execute three dimensional design, creative craftsmanship with video, design, and excellence in digital photography.

He worked with us on the video of every artist that came to our gallery to exhibit. While working, he interviewed his subjects in such a way as to elicit sincere, engaging conversation from even the most hesitant persons. I have witnessed this dedicated and genuine person bring excitement and zest into the eyes of his subjects.

In 2010-11, Andrew walked with us in the design and building of three LEED Gold Certified buildings. He created a time-lapse video of the timber raising of our buildings and our wind turbine. It is because of his enthusiasm, creativity, and helpfulness that we asked him to become involved with MoonTree Studios. We have witnessed him task-manage as a designer, video director, and photographer and were well pleased.

Andrew's ability to conjure up new possibilities and execute them in creative ways gives anyone who works with him a cutting edge. He has my highest recommendation as a creative artist.

I am happy to furnish more details if you would like additional information.

Sincerely,

Sister Mary Baird, PHJC
