

To whom it may concern:

This letter is to serve as recommendation for a very talented videographer, digital specialist and creative mind.

Andrew Zehner has been in the creative photography, digital media and videography arena and proven his capability for many years.

I had the distinct pleasure of working with him at his past employer, where marketing and communications worked closely together.

Andrew has the ability to take direction from a client and develop it into a vision. He can also work with individuals who have no vision or direction and produce a creative piece that they didn't expect.

Andrew's skills in digital enhancement software are very developed.

I would highly recommend Andrew as an asset to any firm, and would enjoy working with him in future endeavors.

I can be contacted at the address and phone below for confirmation, if needed.

Sincerely,

Paula Lambo
